WEDNESDAY DECEMBER 21, 1743.

Extract of a Private Letter.

Genoa, December 7.

HERE never was a Time in 'which this Government was 'so much distressed at Home, 'or Abroad, as she finds her- 'self at present. Factions run 'high in all the Councils; and 'while we are represented a- 'broad as leaning sometimes 'to the Spaniards, and some- 'times to the Austrians, the Truth is, that we are of very little Consideration to any Body; and withal, so torn by intestine Divisions, that it is not easy to know to what Party the Republick, properly speaking, inclines to lean. Surrounded as we are by Armies, and destitute of any Force to resist, it seems to be sporting with our Misery to resent our supposed Inclination to any Party; which, as I have said, is a Thing hard to be discovered, and of very little Consequence when found.

'We long flattered ourselves, that our Weakness might in some Measure produce our Security, since we always reckon'd on the Protection of the House of Austria, and of the Friends to that Family; of which, however, we begin lately to doubt, from the transferring the Marquisate of Final to the King of Sardinia, which we are assured is stipulated by the Treaty of Worms. In order to to give you some Notion of the Importance of this Place, it is requisite to describe it. The Marquisate of Final lies between our Dominions and those of the King of Sardinia. On the East and West it is bounded by Mountains, which divide it from his Territories and ours; on the North it has the Montferrat; and on the South the Mediterranean. The Territory is small, and of little Value, but from its Situation. Final is a Sea Port, and may be made of some Consequence; which makes us so uneasy about it. It had formerly a good Castle, regularly fortified, which we took care to demolish as soon as it came into our Hands; so that, except a Fort near the Sea, which is of no great Strength, we have no Fortifications in the Country.

'This Marquisate antiently belonged to its own Lords, of the Illustrious Family of Caretto, who were said to be descended in a direct Line from Witikind, a famous Saxon General. As their Country was small, and in a manner surrounded by the Duchy of Milan, these Lords chose to be dependent on the Spaniards, till about the Year 1602; when Alphonso di Caretto, the last of them, demanded Protection from France; for which the Spaniards put him to Death, and seized his Dominions. It was from thenceforward considered as Part of the Duchy of Milan; and so became, in the last War, part of the Dominions of the House of Austria; till after the Treaty of Baden, the late Emperor, Charles VI. entered into an Agreement about it with the Republick, which bears Date the 20th of August, 1713, when it was sold to us for a considerable Sum of Money, as a Fief the Empire, from which we afterwards received the Investiture; and the Duke of Savoy, then stiled King of Sicily, having withdrawn the Garison which he had in it, we took Possession of it by a Detachment of 300 Corsicans; and in this Situation the Place has remained ever since, except that, as we have said before, we demolished the Fortifications.

'This is a plain, distinct, and just Account of the whole Affair; and as to the Claim of the King of Sardinia, it arises first from his supposed Right to the Duchy of Milan, of which he considers this as a Part; and next from the Concession of the Queen of Hungary, who supposes it to be yielded to us as a Mortgage, to which she, or her Assigns, are entitled, upon paying off the old Debt; and in this Light, without question, it is considered by the Contracting Parties to the Treaty of Worms; whereas we say, that the Sale was complete and absolute. All that we can do in this Case is, to intercede with Great Britain and the Queen of Hungary, that this Track of Land may not be taken from us; at the same time we address ourselves to the Emperor and the Imperial Dyet, in order to put ourselves under their Protection.

'As to the Affairs of Corsica, they are just where they were; except that the Malecontents have again committed Hostilities, and are taking Measures for building Gallies, and for withdrawing themselves entirely from the Obedience they owe to this State. Our last Negociation with Spain proves abortive, since his Catholick Majesty expects we should declare War against 'his Enemies, if we expect his Protection; which is 'regarded here as a greater Evil than any which we 'have hitherto suffered, and is, consequently, a Proposition with which we can never comply, since it would 'be risking the Whole, for the sake of endeavouring to 'save a Part.'

IRELAND.

THE only short and most infallible Cure in the Universe for the Venereal Disease, from the slightest Infection to the most extreme and deplorable Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant Virus, and the very Bones are affected with it.

Fresh Infections, call'd CLAPS, with all their attendant Symptoms, tho' ever so severe, are entirely carried off in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Relics on one Hand, or a seminal Gleet or Weakness to happen on the other.

And the most inveterate Degree of the French Illness, attended with Nocturnal Pains, universal Breakings out, and all the other most exasperated Symptoms, are soon overcome by it, and effectually and much more safely cured than by Salivation, Inunction, or any other Method whatever, and in so easy and pleasant a Manner, without impairing Strength, or occasioning any Inconvenience, as is to be speak it the only apposite Remedy or true Venereal Antidote in the World; and this some Thousands have to their great Joy experienc'd.

It is pleasant to take, occasions no Sickness or Disorder, nor requires Confinement; but may be taken, and the Cure be accomplish'd, without the Knowledge of the nearest Friend.

Those who suspect they have received an Injury, may by only a Dose or two of it, be perfectly freed from all Apprehensions; for it suffers no lurking Venom to lie in the Body, but wholly extirpates it Root and Branch, in a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining Relicks of former Injuries, may by a few Doses of it intirely free themselves from all Suspicion of that Kind; for it admits of no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on that Account, in all scorbutick, scrophulous, and even leprous Eruptions or Foulnesses of the Skin, Glandulous Swellings and Impurities of the Juices, it does more by one Dose, than any other Medicine yet known can by ten.

The Price of this most Noble ANTI-SYPHILITICK is but Six Shillings a Pot, which, considering its extraordinary Efficacy, one Pot only being sufficient in most Cases to accomplish the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. Rasbeau's Toyshop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up with a Book of Instructions, by the Perusal of which, all Persons who were ever affected with any Degree of the Venereal Disease, may perfectly understand their own Condition, and certainly know when, and when not, the Venereal Poison is intirely rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Scurvy.

The most Fam'd and long Experienced Chymical Drops For ASTHMA's and CONSUMPTIONS,

That have been Sold so many Years, and with such uncommon Success and Benefit to the Publick, by Mr. Parry, *and his Predecessors, in* Boar's-Head-Court, Fleet-street; *and, since Mr.* Parry's *Decease, have been and still are sold in* London *only by Mr.* Read *for* 3 s. 6 d. *a Vial, at his House in* White-Fryars. *(N.B. You turn in just by the* Sun Tavern *in* Fleet-street, *and it's the great Corner House in* White-Fryars; JAMES READ, *in great Letters, is wrote over the Door.)*

They are a most Incomparable and never-failing Medicine for the immediate Relief and perfect Cure of the most confirmed ASTHMA *of the longest standing:*

And of all Sorts of CONSUMPTIONS, *even when far advanced, as not to be cured by any other Medicine in the World.*

FOR their Virtues vastly exceed any Thing that ever was published, or even known in the whole World, in the Cure of the worst Asthma's and Consumptions of all Sorts, Coughs, Colds, Catarrhs, &c.

They instantly relieve the Patient in the most suffocating Fit of an Asthma, and make a perfect Cure in a very short Time; for they gently open the Breast, and immediately give Liberty of Breathing, without danger of taking Cold; they admirably allay the Tickling, which provokes frequent Coughing, and take off the uneasy Sensation of acrimonious Humours, cleanse the small Glands, relax the Fibres, and thereby enlarge the Capacities of the Vessels; thus they regularly and quickly Cure the most obstinate Asthma of the longest standing.

They speedily and to Admiration cure all Sorts of Consumptions, Ulcers of the Lungs, &c. removing all Obstructions of the Breast, and Lungs, Hoarseness, Wheezing, Soreness, Shortness of Breath, and all the usual Symptoms which attend the Beginnings of a Consumption; and, if taken in time, will infallibly prevent one when feared. They are also exceeding nutritive and strengthening to Persons of weakly Constitutions, and have no other sensible Operation than to occasion a gentle Breathing in the Night.

And by Parity of Reasoning this most excellent Medicine is (and is well known to be) the most sovereign Remedy in the World for those troublesome spending Coughs, which many are severely troubled with Night and Morning; and also for the Chin-Cough, and Hooping-Cough in Children, having cured Thousands; is so agreeable, and so few Drops to a Dose, that Children take them with Pleasure, and without any Confinement.

In short, these unparallel'd Chymical Drops are the most infallible Remedy that ever was known (and the reason we dislike the faint Efforts of all Counterfeiters or Imitators) for the Ailments above-mentioned, and allowed to be so by the most Judicious amongst the Learned in Physick; and confirmed by the largest Experience in private Practice, and are made Publick for Common Good.

N B. They are sent to many Parts of the World, particularly to his Majesty's Colonies in the West Indies, &c.

Good Allowance is given by the Dozen to sell them again.

They will keep good many Years, well cork'd, in any Climate.
